

HOW TO BET AUTO RACING

INDIVIDUAL RACE BETTING: The structure of betting on auto racing is similar to that of golf. The most basic wager involves picking the winner of a race. Typically, the Odawa Casino Sportsbook will list several drivers along with a field (all others) option, at various odds.

For example, Denny Hamlin may be listed at 4-1, Joey Logano at 15-1, Kyle Buschat 100-1, etc. If you bet \$10 on Logano 15-1 and he goes on to win the race, you win \$150 plus your \$10 back, for a total payoff of \$160.

<u>DRIVER</u>	<u>ODDS</u>
Denny Hamlin	4-1
Joey Logano	15-1
Kyle Larson	100-1

DRIVER MATCHUP PROPOSITIONS: Auto racing matchup propositions in which two drivers are paired against each other in a head-to-head wager, with a betting line on each driver set by the oddsmaker. The driver with the better finish in the race wins the matchup. (Both drivers must start for action.)

EXAMPLE:

<u>DRIVER</u>	<u>MONEY LINE</u>
Kevin Harvick	-145
Ryan Newman	+125

A matchup may pit Kevin Harvick (-145) against Ryan Newman (+125). If you bet \$145 on the favored Harvick, the payoff would be \$100 plus your \$145 back, for a total of \$245. If you bet \$100 on the underdog Newman, the payoff would be \$125 plus your \$100 back, for a total of \$225.

The Odawa Casino Sportsbook may post auto racing propositions such as the Over/Under on the number of cautions in a race, or which car manufacturer (GM, Ford or Dodge) will win the race.

Betting lines maybe found on NASCAR and selected Indy Car races.

OFF THE BOARD PARLAYS (FOR ALL SPORTS): These wagers are calculated using true odds payoffs. If you bet four teams off the board and all of them are listed at -110, your payout would be 13.3 for 1, which is more generous than the parlay card payout of 12 for 1.
